

**DESCRIPTION**

- Blended using unique friction modifier additive that provide excellent protection to the upper cylinder area where crankcase oil cannot reach
- Provide improvement in fuel economy from the first tank of use
- 100ml treat up to 40 liters of gasoline

**BENEFITS**

- Increases performance
- Increases power
- Prevents carbon deposit
- Unclogs dirty injectors
- Reduces smoke and emissions

**TYPICAL CHARACTERISTICS**

Test Description	Method	
Specific Gravity @ 15°C	ASTM D4052	0.819
Flash Pt, °C	ASTM D92	80
Pour Pt, °C	ASTM D97	-30
Kinematic Viscosity,cSt @40°C	ASTM D445	2.39
Color	ASTM D1500	Brown

**SPECIFICATIONS AND APPROVALS**

- NIL
